

National Opinion Poll on Socio-Economic Conditions

Questionnaire

PURPOSE and OBJECTIVES:

To measure growth one must have a base value for comparison. This survey will attempt to do just that for the ***socio-economic conditions*** of Dominica as the people themselves perceive them. This is therefore an *opinion survey* and not a quantitative measure of the Dominican economy.

INSTRUCTIONS:

All that is required of you, the respondent, is to tell us to what extent you agree or disagree with the statements made in the questionnaire. It is entirely **your own opinion**. The survey does not ask for your name. So it is anonymous.
